PROFESSIONAL SUMMARY

Full-stack developer building production-oriented web applications and AI/SaaS products across backend, frontend, APIs, integrations and deployment. Experienced with Python, Django, JavaScript, PostgreSQL and REST APIs, with hands-on work integrating AI, RAG/knowledge systems, Stripe subscriptions, analytics and mobile clients. Combines software development with a long technical service background and practical problem-solving experience.

TECHNICAL SKILLS

Backend & Data	Python, Django, Flask, PostgreSQL, SQL, REST APIs
Frontend & Mobile	JavaScript, HTML5, CSS3, responsive UI, React Native, Expo
AI & SaaS	OpenAI integration, RAG / Knowledge Base, AI assistants, Stripe subscriptions, analytics
Engineering	Git, GitHub, testing, API integration, Heroku deployment, accessibility

FEATURED PROJECT

AI Assistant - Full-Stack AI SaaS Platform

Designed and developed a full-stack SaaS platform for creating specialized AI assistants for individuals and small businesses. Live web product: myaiassistantapp.se | Source: github.com/God-zil-la/Project-4

- Built the Django/Python backend, web UI, account flows and REST API used by the product and mobile client.
- Implemented assistant customization, multilingual conversations, conversation history and usage analytics.
- Developed Knowledge Base / RAG functionality so assistants can use owner-provided knowledge.
- Built a website widget and public chatbot with visitor conversations tied securely to the correct assistant and owner.
- Integrated Stripe subscription flows, Discord functionality and API access, with plan-based feature controls.
- Developed the Android client with React Native / Expo; the app is currently progressing through Google Play testing.
- Deployed and maintained the production web application on Heroku with a custom domain and regression testing.

ADDITIONAL DEVELOPMENT PROJECTS

Event Planner App - Django CRUD application with authentication and Google Calendar integration.
Memory Game - JavaScript memory game with Firebase Realtime Database for best-time tracking.
PrintNest - Responsive 3D-printing website with multilingual support.
Developer Portfolio - Responsive bilingual developer portfolio showcasing projects, skills and contact information.

PROFESSIONAL EXPERIENCE

Service Technician, Hörmann AB	2023-2025
